

## Feature & Nutrient

- Grower Diet is a feed optimized for the breeding stage and lactating sows based on the technology of Optipharm Medipig.
- This product is designed to provide sufficient nutrients for the growth and lactation of Miniature Pigs.
- Hygienic feed production guarantees no cross-contamination of harmful substances.
- It is an essential feed in breeding SPF experimental animals.
- The destruction of nutrients is minimized during irradiation and high-temperature autoclaving, ensuring the required nutrients are provided.

**Pellet** Average diameter : 3 mm  
Average length : 10 mm

Division	Unit	Ingredient amount	Division	Unit	Ingredient amount
PROTEIN		16.00	Zinc	Mg/Kg	16.00
